INAUGURAL ADDRESS

DELIVERED BY

HONORABLE HENRI A. BURQUE

MAYOR OF THE CITY OF NASHUA

At the inauguration exercises of the Sixty-Seventh

City Government of the City of Nashua.

January 1, 1920.

GENTLEMEN OF THE BOARD OF ALDERMEN:

We have been chosen by the Citizens of Nashua to administer the affairs of the City for the next two years. Our position is that of a Board of Directors, charged with the affairs of the Corporation, for the benefit of the Stockholders, the inhabitants of the City. In all our actions and deliberations we must be animated by one motive only, that of looking after the welfare of the Community. Personal ambitions, feelings and prejudices must be set aside, and we must approach our task and discharge our duties and obligations as servants of the public, with a broad mind, open to reason and conviction, ever mindful of our oath.

In these days of industrial unrest and uncertainty, difficult problems will present themselves, and we must ever be ready to do our utmost to solve them in the most beneficial way for the greatest good of all. Our motto should be: — "Nashua, first, last and always!"

First of all we must resolve to limit our expenditures to our revenues, and the liabilities incurred during our term of office should never exceed our income except in cases where the work undertaken and done is to be so lasting, that its cost should be borne, from year to year by a generation to come. Our income will consist principally of

the amount of money realized through taxation, to which may be added such revenues as are derived through different departments from sundry sources.

Under our system of Municipal Government we must make our appropriations and adopt our budget before we can be correctly informed of the amount of money that can be raised by taxation. It is therefore incumbent upon us to get as near an estimate as is possible of what the assessed valuation may be, together with our other income, and then, having before us the demands of the different departments, prepare our budget in conformity with our resources.

Having done so, it will then devolve upon us to see to it that each department lives within its appropriation. Previous administrations have adopted this policy, and whenever such a policy has been scrupulously lived up to, results beneficial to the City have invariably followed. I recommend this to you very urgently.

Our city indebtedness at the present date, i. e. the net bonded indebtedness, is as follows: — \$1,077,377.81. Five years ago our indebtedness was \$540,532.09, so that our debt has been increased \$536,845.72 in that short period, in other words it has practically doubled. This means that the amount to be appropriated for the interest on the debt will necessarily be much larger than it ever has been, and the same will apply to the Sinking Fund. Our tax valuation will increase, the amount of which however is not now determinable, but if we go on allowing our expenditures to increase out of proportion to our revenues, you will soon realize that the situation which confronts us is one which requires considerable thought and study, and a determination to act judiciously, cautiously and economically in the management of our public moneys. Surely we must stop sometime, and there is no time like the present. We

must of course look after our daily needs, but improvements and betterments that can wait, without detriment to the city, must wait.

We will have to deal with the situation with a firm hand, not hesitating to displease or disappoint when necessary, but ever mindful of the best interest of us all. And this much we cannot question; that we have no right to expend public funds, without showing value in return.

New expenditures will be necessary. For example we can not expect our housing accommodations to improve unless we give proposed real estate improvement the assistance it requires. A few sections of the city are already under development, others are awaiting the outcome of our deliberations on this proposition. The need cannot be denied, and in caring for it sound judgment and discretion must be exercised in order that our activities may obtain where the most good will result.

The growth of our city will depend entirely upon what we do, and let us, while the opportunity is here, grasp it and help it along to the full extent of our power so that Nashua may advance as it should industrially, commercially and in population. Endowed with practically all the advantages that can be given to a municipality to make it attractive, we must not hesitate to expend moneys in directions which will assure us good investments and immediate profitable returns.

We cannot expect industries to look favorably upon us unless we offer them the proper attractions, and these consist in an indebtedness well within our borrowing capacity, a low tax rate, coupled with reasonable assessed valuations, and housing facilities commensurate with the requirements of our industries. Capital attracts capital, and what I have enumerated above creates capital. The

future prosperity of our city is very encouraging, and it devolves upon us to lend it the necessary impetus, and see that the movement grows without any obstacles being placed in its path. I earnestly recommend that you study this question carefully, and by energetic effort make of Nashua a bigger, busier and better community.

In conjunction with the above, the question of sewerage, street lights, highways and sidewalks will demand consideration. The work required in this direction and contemplated to be done by the Board of Public Works, as far as sewers and highways are concerned, will be outlined to you in due time, and you will of course have to pass judgment upon the demands of that department.

Our sidewalks however present another problem. The betterment law, as it now stands on our Statute books, is not of much assistance, its constitutionality being gravely questioned. I earnestly recommend that our delegates to the Constitutional Convention give this matter their attention, and help, if possible, to draft an amendment which can be submitted to the people, for their approval, in order that the situation may be clarified, and that the required remedy may be administered. All we can do presently is to urge public spirited property owners to pay more attention to this matter, and help beautify our city by taking a little more pride in their sidewalks.

Our police and fire departments will submit to you an itemized statement of the necessary funds to conduct their affairs. It will be your duty to scrutinize them carefully and to do justice to each. I intentionally refrain from any comment at this time, and will do so until I have had ample time to familiarize myself more fully with each.

Much has been said in the past, and specially of recent date, in regard to our parks and recreation grounds, and well can that subject merit attention. You will be called

upon, without any doubt, and in the immediate future, to exercise your authority in granting to our youth more privileges for recreation. Until the proposition is placed before you, it is impossible for me to make any recommendations. But I might state now, without any hesitancy, that whatever is done in this field must be in view solely of what will be best under the circumstances and where the most benefit will result. Our present playgrounds, or parks, or commons, whatever we may call them, are certainly a very fertile field for action, and well may we pause and give the whole subject a thorough investigation.

Our schools require our constant care and attention, and we must always guard well indeed the preparation of our children for the battle of life. Education is of greater importance now than it ever has been, for without it the young man and young girl of today is lost in the whirlwind and is like a ship without a rudder. Rigid state laws have been enacted to bring about the education of every child, and we must see to it that their provisions are fully complied with. Our Board of Education, charged with the duties of this department, is doing excellent work, and with our well equipped modern schools and efficient corps of teachers, our children have the very best of facilities to acquire the knowledge they need almost in every educational line to primarily equip them for almost any branch of business, trade or profession they may later choose.

I understand you will be asked to grant an increase of wages to the teachers, and a petition fixing a specific scale will be presented for your consideration. There is no denying the fact that this will probably be your greatest task and coming as it will at the very beginning of your term, will require sober thought and judgment. I feel confident

that you will do full justice in this matter, as in all others, that the best of motives will actuate your deliberations, and a fair conclusion will be arrived at.

What shall I say of our Board of Public Health and the excellent work it has performed, is now engaged in and must continue. This department has grown wonderfully in recent years, and its work must necessarily increase and keep pace with the demands of a growing, progressive community. All I need recommend to you is that the necessary funds be appropriated in order that this department may do all that is required of it to safeguard the health of the community.

And lastly, let me add a word to the board of Assessors. It is a matter of common knowledge that real estate values, within a year, have soared greatly, and that this Board has its work well mapped out, in revising these values for taxation purposes. Equity, justice and fairness are to be exercised, but on the other hand members of the Board must act firmly, with determination, and without any hesitancy to fulfill their whole duty to the city. I earnestly recommend that all income producing real estate be assessed on a valuation based on revenue and that unimproved property, for which there is a market, and which cannot be purchased, be taxed at a fair market value.

With this short review of our needs and problems which confront us, let us undertake the performance of our public trust with the sole desire and ambition of safeguarding the interest of all concerned, fair in our deliberations, impartial in our decisions, aiming to accomplish the greatest good for the common cause. Let us never lose sight of the fact that we are public servants, that the affairs of the city, its properties and funds are entrusted to us for safe-keeping and sound administration, that at the end of our term of office we must render an account of our steward-

ship, and that we cannot expect commendation unless we have been faithful and true to ourselves and to our fellow citizens. I am confident that this is our joint resolution today, and that harmony and good fellowship will reign during our term.

REPORT

OF THE

BOARD OF HEALTH AND THE
HEALTH OFFICER

FOR THE

FINANCIAL YEAR 1919

Report of the Board of Health.

NASHUA, N.H., April 1, 1920.

To His Honor the Mayor and Board of Aldermen:

GENTLEMEN — Following is the report of the Board of Health for the year ending December 31, 1919. During the year an office with facilities for Tuberculosis and Venereal Clinics was established and equipped in the Montcalm Building. The office is open every day, Sundays and Holidays excepted, from 8.30 A. M. to 5 P. M. and Wednesday and Saturday evenings from 7 to 8.30 P. M. A clerk is in attendance at all times for the transaction of the business of this department.

The Annual Spring Inspection which includes a house to house canvass explaining and correcting unsanitary conditions was augmented by an intensive campaign later in the season in which the Board of Public Works co-operated. In this work the laws regarding nuisances were printed in five different languages and posted in conspicuous places. All English and foreign printed newspapers ran these laws as paid advertisements. The object being to stimulate a civic interest in maintaining cleaner and more sanitary conditions in our city, and it is the intention of this Board to do more intensive work along these lines, and will where necessary invoke police power to help in this most important work. Our survey of the city shows the absolute need of a Building Inspector, as housing conditions in some sections are deplorable. There is also a great need of a Plumbing Inspector and should these departments be created a great change for public good could be brought about in housing and living conditions in our City.

An ordinance making obligatory the screening of barn cellars, the proper care and disposal of manure, the main-

tenance and care of fly traps would help to lessen fly born diseases and odor nuisances.

During the summer season numerous complaints are filed as odor nuisances where pigs are kept. There should be some legal restrictions enacted to enable this Board to abate such nuisances.

CLINICS. A Tuberculosis Clinic established in 1918, was continued during the year. One-half the expense was defrayed by the New Hampshire Tuberculosis Association. This Board appreciates beyond measure the work done by this Clinic. The personnel of the Clinic, consists of Dr. Robert B. Kerr, as Chief of Clinic and Miss Anna Hayes as Clerk and our local Tuberculosis nurse. We take this opportunity to express to Dr. Kerr, and his assistant, our most sincere gratitude for their interest in this work. During the year 40 clinics were held, attended by 538 patients, and 960 home visits were made by the nurse.

A Venereal Clinic was established in August 1919. It is maintained by the U. S. Public Health service and State Board of Health. A realization of the necessity of this work was brought about during the war. Your Board has asked the Local Chapter of the American Red Cross for a nurse for this department. The Clinic is open two afternoons and evenings each week for treatments. The necessity for this work is obvious and already the work of this department is commencing to show a work for the public good.

CONTAGIOUS DISEASES

During the year Scarlet Fever was more or less prevalent this being due to the mildness of cases, some being unsuspected and acting as carriers for the spread of disease. In several instances several children being exposed before the real nature of the disease was determined. This shows the absolute necessity of proper isolation and disinfection of sore throats and their secretions. If such a measure was

carried out by our citizens it would help to eradicate this disease in our community.

The following diseases were reported to our office during the year.

Scarlet Fever	157
Diphtheria	35
Mumps	10
Gonorrhea	67
Syphilis	29
Chanroid	3
Tuberculosis	230
Chicken Pox	3
Measles	2
Small Pox	2

Semi-annual inspections are made of all bakeries, grocery stores, markets and all stores handling food stuffs. The sanitary food law is explained and co-operation asked. Samples of all ingredients entering into food manufactured and sold are submitted to the State Chemist for approval. Tonics and Beverages of all kinds sold in Nashua are passed upon by the State Laboratory for their approval. Barber shops, hospitals and infant homes are inspected semi-annually.

Samples of milk are collected and examined at various times during the year. Farms are inspected to determine the sanitary conditions of milk from its source. Dairies are inspected and required to enforce the law regarding the care and handling of milk, with very few exceptions these dairies rank very high.

Respectfully submitted,

P. J. McLAUGHLIN, M. D.

HARRY M. MORSE, M. D.

JOHN P. SULLIVAN.

Report of Health Inspector

NASHUA, N. H., April 1, 1920.

To the Board of Health, City of Nashua:

GENTLEMEN—I herewith submit the following report as Health Inspector for the City of Nashua, from January 1, 1919-1920.

I have attempted to make this report as broad as possible and believe that the whole field of this department activities has been covered exhaustively. I have also tried to make my report easily understandable to all, in that the matter with which it deals is of vital importance.

The following list of inspections does not include all of the work of the Health Inspector, but as much of it as is possible to classify.

Houses placarded	194
Rooms fumigated	226
Tenements inspected	20
Plumbing and drainage inspections	40
Privy vault inspections	16
Yard and alley inspections	114
Barber shops inspected	38
Restaurants inspected	49
Bakeries and bakery wagons inspected	38
Food stores inspected	133
Candy factories inspected	8
School buildings inspected	6
Complaints investigated	103
Water sent to Concord for analysis	2
Ice sent to Concord for analysis	2
Nuisances ordered abated	70
Dead animals ordered removed	78

Lying-in Hospitals inspected	4
Infant' Asylums	4
Boarding Houses inspected	40

Considerable time is spent in investigating public nuisances which have no foundation. Time and again complaints come to this office which have no relation to public health, such as ash heaps, rock piles and unsightly conditions. Broken public sewers should not be complained of to the health department but should be referred to the Public Works department. If complaints like these were carried to the right authorities the Health Officer would have more time for public Health work.

Besides the above reported work done, drinking fountains, ice cream parlors, slaughter houses, pig pens, etc. were inspected, and hens ordered removed from attics and cellars of many houses.

Strict quarantine has been placed on all contagious diseases, and a constant watch kept that such quarantine is properly carried out.

During the past year I have been greatly aided in my work by the Public Health Nurse who has assisted me in carrying out the work of the Contagious Disease Department, she having made many visits to see that strict quarantine was being kept, that otherwise I should have been obliged to have made.

Thanking the member of the Board of Health for their cooperation, I am

Respectfully yours,

THOMAS F. CULLEN,

Health Inspector.

REPORT

OF THE

Trustees of the Public Library

FOR THE

FINANCIAL YEAR 1919

Report of the Librarian

To the Board of Trustees of the Nashua Public Library:

GENTLEMEN—I have the honor to submit a report of the work of the Library for the year 1919. The 53rd since its beginning in 1867, a wee infant of 1,300 volumes donated by the Union Atheneum Library, a few hundred given by citizens and the Nashua Manufacturers Library Association, but endowed by the City from its birth with a yearly annuity of \$1,000.00.

The Library has shown a healthy growth from the start in books, patronage and the pleasure and help it has given all classes of patrons. Today it has 39,785 bound volumes, 782 pamphlets and 499 Government Documents, added since these have been accessioned separately. 934 volumes have been added this year, 46 of these were given and 49 are bound volumes of magazines. It has patrons from all parts of the City and of many nationalities.

Circulation

The Library has been open 303 days and the total recorded circulation for the year 1919 is 90,371, a gain of 8,303 over the year 1918. A great gain is shown in the worthwhile books asked for and used. Technical books, in many branches of business and on industrial and manufacturing lines, as Textiles, Concrete Construction, Building, Electrical and Steam Engineering, Charting, Bookkeeping and Accounting, Social and Physical Science, Economics, Sociology and Psychology. There have been 803 new registrations, and these show the growth of the City in directions far from the Library, clearly demonstrating the need of a branch library on the South Side of the City.

Reading Room

No record has been kept of the number of people using the Reading and Reference Room, as there is no special attendant for this room. Surely no less than 10,000 have used it this year. The Newspaper Room is also well patronized.

124 periodicals have been on file here, 86 subscribed for and 28 given and all circulate. When two copies are taken the current number and when only one copy two numbers are kept on file in the Reading Room and later can go out.

The use of this room by patrons for reference work constantly increases. Scarcely a morning that does not see some one or more students earnestly working there. Pupils are daily sent to the Library for further information on assigned subjects. This is one of the Library's most important activities though it cannot be assured by statistics. Often as many as ten or twelve questions are answered in a day, by telephone or personal request, and cover a vast field. 35 books have been added this year as aids in this work. This room now contains 1,745 volumes. Frequently groups of our foreign born citizens who can read English, pass a pleasant evening here with the books and magazines.

In the Newspaper Room 7 daily and 1 semi weekly are on file. 1 paper in French and 1 in Polish.

The circulation of foreign books is a few less than last year, as the children and young people read mostly English books, and their parents have read all we have in their native language several times. Some read in two or three languages and biography and history give them most pleasure.

Children's department

The Children's Room is still the Library's problem. Yet good results are shown here and under the most trying conditions, with from 150 to 300 children visiting this room daily and the number constantly increasing, and only 28 chairs possible. It requires vigilance and patience to keep the balance of power. At the crowded hours two assistants have been required to give the children the help they need in selecting their books, and it has seemed best to allow some of the larger and older boys and girls to use the Adult Reading Room at times.

To lessen the number of these juvenile patrons by establishing an age limit seems cruel, as most of these little

ones can, in no other way than through the library, enjoy books, pictures, puzzles and games.

The children are very dear and the library has no more appreciative or enthusiastic patrons than the little people, who, except the soiling from dirty hands are as careful of the books as many older patrons.

This room seems one of the best means of Americanization, for here the children of all nationalities mingle, heads together over the books and puzzles, with rarely a frown or unkind word, and these are our American citizens of the future.

Cooperation with the Government in its activities, pamphlets on Gardening, Food Preservation and Conservation have been distributed. Posters have been displayed on Thrift, for the Red Cross, Y. M. C. A., Y. W. C. A. Drives, and War Saving Stamps, and as long as they were wanted, books were collected for the soldiers and sailors. Since it has been known that the Hospital at Grassmere needed reading matter, more than a 100 books and magazines have been sent there and the Matron expressed much gratitude for them. It is a very agreeable change to swing back to legitimate Library work with a few of these side issues.

Morgan Gift

The late Charles C. Morgan collected an extensive library, a portion of which he left to the Nashua Public Library to be known as the "Charles C. Morgan Donation."

In addition to this generous gift his nieces, Miss Marion B. Aten of this City and Mrs. Helen M. Cook of Montclair, New Jersey, have presented the Library with about 350 volumes formerly a part of Mr. Morgan's collection. These have been placed upon shelving on the west side of the Reading and Reference Room and will be known as the "Charles C. Morgan Memorial." Both gifts comprise 500 volumes, and are of special value, being selected with great care by Mr. Morgan, who was a rare judge of good literature and they form a working library for students, that few libraries of our size possess. At the request of the Trustees a special bookplate, designed under the direction of Mr. Ira F. Harris, Mr. Morgan's Executor and a Library Trustee, has been placed in these books.

The Staff has done faithful and efficient work and no changes have occurred. Miss Eva S. Davis has continued as Cataloguer and Reference Helper, Miss Clara E. Smith in charge of the Delivery Desk and Librarian's Helper. Mr. Holman is at the desk afternoons and three evenings each week, he is also keeping the Reading Rooms open Sunday afternoons from 2 to 5 P. M. Miss Edna M. Ledger has been the Children's Librarian during the year, giving most faithful and loving service, which the children appreciate. She has had for a regular assistant, Miss Annie Goodrich, a teacher for some years.

The Library desires to make grateful acknowledgment to the Nashua Daily Telegraph for printing lists of the monthly

additions and other notices from time to time and various courtesies received.

In closing I wish to thank the Board of Trustees for the encouragement ever received and suggestions kindly granted. And to commend the kind and faithful services of my assistants at all times.

Respectfully submitted,

SARAH P. BARKER,

Librarian.

REPORT

OF THE

PARK COMMISSION

FOR THE

FINANCIAL YEAR 1919

Report of the Park Commission

To His Honor the Mayor and the Board of Aldermen:

The Park Commission submit their Annual Report for the year ending Dec. 31, 1919.

The high price of labor has handicapped our work during the year. However, we have been able to give the care needed to the work in general. The widening of Concord street along the Park lines has been completed and filling of ashes has been loamed over and seeded. Further improvements will be made in the Spring. The band concerts Sunday afternoons during the summer continue to be appreciated by the people who are privileged to attend. The Park Commission has been very fortunate in procuring, with the consent of the Mayor and Aldermen, a valuable tract of land on Manchester Street, adjacent to land already owned by the city. This land when developed will be a valuable asset to the Park System. The purchase has been made without an additional appropriation, as the money was saved from omitting other improvements. The moth works continues to need careful attention. The Elm Beetle and Gypsy moths are still a serious menace to our many beautiful shade trees. The Park Commission are mindful of this and are giving the matter special attention. The demand for a good athletic field, which would be a combination of base ball diamond, foot ball field and skating park for winter, is very evident. If an appropriation can be made each year for this purpose, and we can have the co-operation of the Board of Public Works to help in the filling, the South Common can be made into a fine playground in a very short time and

would be a credit to the city and great enjoyment to the hundreds of children and adults who would use it as such. We would suggest that the city purchase land at Crown Hill and also the Chandler Street districts for playground purposes while there are good available plots to be had.

Respectfully,

HENRY H. DAVIS,

JASON E. TOLLES,

HERBERT E. KENDALL,

Park Commission.

FIRE-ALARM TELEGRAPH

This branch of service is now in good condition except the placing of wires in ducts located by N. E. T. & T. Co. in place of overhead wires, which work is still in progress as fast as ducts are laid.

INSTRUCTIONS TO KEY HOLDERS

1. Upon the discovery of a fire, go to the nearest box, break the glass on the key box; place key in lock, turn key and open door (be sure to hold door open as there is a spring lock on the door). Pull down on the lever and let go. Do not try to remove key, as it is locked in and can only be removed by some one in authority.

2. Any person ringing in an alarm should remain near box so as to direct the Firemen to the Fire.

3. No person should give an alarm for the same fire after the first alarm has been given without an order from the Engineer or Officer or Commissionners in command. And the person so ordered shall be sure to go to the same box from which the first alarm was given and report to the Officer who issued this order.

4. Never signal for a fire seen at a distance. Never touch a box except to give an alarm for fire. Do not give an alarm from a box for a chimney, or grass fire, call Central Station, Telephone 112-1. Do not get excited when you tell Central where the fire is located. Talk slow and distinct.

Respectfully submitted,

REPORT

OF THE

POLICE COMMISSIONERS

FOR THE

FINANCIAL YEAR 1919

Report of Police Commissioners

To His Honor the Mayor and the Honorable Board of Aldermen of Nashua N. H.

NASHUA, N. H. March, 13, 1920.

GENTLEMEN—Enclosed find detail report of the number of arrests, disposition of same, incidental service, etc. of the Police Department for the year 1919.

The efficiency of the Department has been greatly increased during the year and all complaints and calls have been promptly attended to. The Commission have found it necessary to employ the same number of officers as in the past that life and property may be protected. It will be necessary in the near future to increase the force by adding a traffic officer on account of the increased traffic through Main Street.

Respectfully yours,

ROSCOE F. PROCTOR,

Chairman.

REPORT

OF THE

BOARD OF PUBLIC WORKS

FOR THE

FINANCIAL YEAR 1919

Report of the Board of Public Works

NASHUA, N. H., March 1, 1920.

Honorable Board of Aldermen:

GENTLEMEN—The following is the report of the Board of Public Works for the year ending December 20, 1919.

During the year 1919 Prospect Street was paved with Modified Topeka with cement gutter, at a cost of \$4,386.60; Factory Street was paved with Modified Topeka with cement concrete gutter, cost \$2,946.27; Water Street was paved with cement concrete, cost \$1,345.67; Library Hill, Main Street paved with new granite blocks grouted, cost \$2,621.20; Main Street, granite blocks relaid and grouted, cost \$2,179.22; Amory Street and Temple, granite blocks relaid and grouted, cost \$5,140.00; Milford Highway surface treatment, cost \$2,191.81 (1/2 paid by state).

Prior to 1919 sewer construction had been neglected and the growth of the City made considerable work necessary, and a bond issue of \$15,000 was granted for this purpose and the following work was completed within the appropriation.

In September the development of the section east of Berkeley street made another bond issue necessary. This amount was \$20,000 and was designed to provide for a sewer in Revere street, and the completion of Chestnut street, also the so-called trunk system from Lock street up Atherton avenue and across the Laton Farm to Stark street, then up Stark street to Chester street, this system can be developed to take care of all that section of the City.

This system includes:

Atherton Avenue across Laton Farm

	2250 ft.	24 in. pipe
Stark Street	1050 ft.	18 in. pipe
Chester Street	1150 ft.	15 in. pipe
Courtland Street	250 ft.	8 in. pipe

The pipe has been purchased and is on the job and part of the work completed. Revere Street, 441 ft. 10 in. pipe and Chestnut Street, 550 ft. 10 in. pipe has been completed. There is still an unexpended balance for this work.

RESOLUTION

TO EXEMPT THE PROPERTY OF THE F. J. CARR COMPANY
CITY OF NASHUA,

*In the year of Our Lord one thousand nine hundred and
nineteen.*

Resolved, By the Board of Aldermen of the City of Nashua.

Whereas it is provided by section eleven Chapter 55 of the Public Statutes of New Hampshire as amended that towns may by vote exempt from taxation for a term not exceeding ten years any manufacturing establishment purposed to be erected or put in operation therein, and the capital to be used in operating the same unless such establishment has been previously exempted by some town, provided however that the assessors shall annually appraise said property and valuation determined upon for the same shall be added to the valuation of all other property in the town to determine the total valuation for the purpose of state and county tax, and F. J. Carr Company purposes to erect upon its premises on Fairmount Heights in said Nashua during the year 1919 a factory,

Now therefore, be it resolved that said factory of said F. J. Carr Company to be erected on its premises on said Fairmount Heights during 1919 and 1920 and that the machinery there in be exempted from taxation for a period of ten years from the date of the passage of this resolution together with the stock in trade in said factory provided that the said F. J. Carr Company shall pay to the City of Nashua annually the amount of the state and county taxes due upon the said property during the term of the execution, and it is further resolved shall take effect upon its passage.

Passed October 28, 1919.

Approved October 30, 1919.

RESOLUTION

AUTHORIZING AN AGREEMENT TO IDEMNIFY THE NASHUA BUILDING COMPANY AND THOMAS M. JAMES, ARCHITECT, AGAINST LOSS ON THE OCCASION OF THE USE OF THE NEW HIGH SCHOOL BUILDING FOR THE GRAND VICTORY BALL TO BE HELD NOVEMBER 11, 1919, BY THE AMERICAN LEGION.

That the Mayor and the Chairman of the Joint Building Committee of the New High School Building not yet completed are hereby authorized to execute and sign an agreement to idemnify the Nashua Building Company and Thomas M. James, Architect, against any loss on the occasion of the use of said New High School Building for the Grand Victory Ball to be held on the 11th day of November next Tuesday evening, by the American Legion.

It is understood that the use mentioned shall extend to no other part of the Building than the auditorium and the drill hall and approaches thereto; and that upon the termination of said use the said obligees shall complete the same for acceptance by the City according to contract.

It is also understood that the said obligees consent to the said use of the Building on the occasion and for the purpose mentioned.

The year just past has been comparatively uneventful in medical and surgical features. In common with other similar institutions this hospital has shared the difficulties of securing an adequate supply of help in its various departments and of attracting to its Training School the number of educated young women that it could use to advantage.

The high wages paid in the industrial world and the shortened hours of labor have diverted the current of workers to where money flows most plentifully with the result that ordinary help are fleeting and uncertain quantity and the educated girl often feels that two and a half to three years training for a degree as a graduate nurse is too long for her to delay in reaping the golden harvest.

The occasional shortage of help has been met, however, by the fine spirit of cooperation and team work on the part of nurses and employees who often found it necessary to toil many hours a day over the modern working limit in order to do what conscience and professional training required for the treatment of the sick and the injured.

With a view of raising the standard of hospitals throughout the country, the American College of Surgeons

has formulated certain requirements for institutions that they may give the best possible service to their patients. Among these are more complete records, more careful history taking and diagnosis, better laboratory facilities, complete X-ray equipment and regular monthly meetings of the hospital staff.

The idea was heartily endorsed by your committee, the college records adopted without change, and plans made to further enlarge the laboratory and X-ray work.

The new college records are here in use and other requirements of class A are in process of installation. These changes will, of necessity, mean additional expense for equipment and for maintenance but it is a step forward; it will bring results; and it must be done.

Each succeeding year shows an increase in the number of hospital patients. The past six months shows a larger percentage of increase than any similar period in our history. At the present writing every bed in the hospital is filled. Three extra beds are set up in the corridors and there are six patients on the waiting list.

The scarcity of nurses, their increased salary and keeping, and the added household work entailed in treating a case at home is largely responsible for the influx to hospitals where a patient can be provided with care in a private room at one half the expense incurred at home.

With every hospital bed in Nashua filled as they are at present and with trained nurses at a premium, our hospital management would be quite embarrassed if suddenly called upon to provide 50 or 100 beds for some epidemic or some large accident. Every hospital should have at least six empty beds to preserve a proper elasticity; less than that number puts a cramp in the work.

Our City is now entering the greatest era of progress

in its history. The expansion of old sound business industries with the addition of new ones means most certainly a large increase in our population.

Economic conditions show us that an increased number of our present residents and a larger proportion of the new, will seek, and must be provided with, hospital care. It is up to us to call attention to the fact, and do something to provide for the present and near future requirements. This city should be provided with a substantial increase in its hospital beds during the present year.

As a modest beginning a story should be added to the main Memorial Hospital Building and later a new larger building to take the place of the wooden annex in use. How the necessary funds to do this work can be secured we do not know, and we ask for suggestions and contributions. Once before in the history of this institution we faced a similar situation and it fell to the lot of a member of the hospital staff, Dr. George F. Wilbur, to solve the problem, and prove himself the greatest benefactor that Nashua has ever had. This genial doctor of the old school, a learned, modest, general practitioner returned his savings to the people among whom he practiced for 42 years, and wisely made the fund available at once that the people among whom he worked, and those he worked with, might get the benefit.

Since the construction of the new Memorial Hospital building, which this gift made possible, an average of 1,300 patients a year have shared in his life's work and it will carry on. No better use can be made of money than providing for the relief of the sick and the injured, and no finer memorial is within the reach of one who wishes to do good.

We commend the able management and work of the superintendent, Miss Martha A. Wallace, and her corps of nurses and also the good will and services of the Staff. To those who contributed supplies during the year the thanks of the Association are extended.

Respectfully submitted,

A. W. SHEA, Chairman,

Executive Committee.

REPORT OF MEMORIAL HOSPITAL TRAINING SCHOOL COMMITTEE FOR 1919.

The School begins the new year in excellent condition except that there is a lack of sufficient new pupils. The personnel is upholding the usual high standard, but we regret that so few young women are training for this noble profession.

I presume the lure of high wages for unskilled labor is the chief reason. Be that as it may, we have had only eight applicants during the year, all of whom were admitted and made good during their probation. Six students have received their diplomas and sixteen remain in the School. These, with the five graduates employed are amply able to care for the patients, even when the beds are all filled—but what are we to do when the present senior class graduates? We can only hope that the tide will turn, and the next few months give us a good class of probationers. I am glad to report that no change has been made in our efficient staff, except the addition of a nurse to take charge of the second floor, Miss Gorman, a graduate of North Adams General Hospital, which is affiliated with the Mass. General, ably filling this position.

The epidemic of last year interrupted the usual course of lectures by the medical staff, and classes given by the Superintendent and her assistants. By giving daily lessons since October 1st, the course has been completed, and we start 1920 with the work up to date. We were fortunate in again securing the services of Miss Mary Pillsbury, and the use of the public school kitchen laboratory for the course in diatetics.

Miss Leila Colburn generously donated \$50 toward a reference library for the nurses, and to this has been added \$25 from the estate of the late Dr. D. M. Shea, presented by the courtesy of his brother Mr. Daniel F. Shea. Our thanks are due for this timely gift, enabling the pupils to obtain a wider knowledge than can be found in their text books. This is increasingly necessary, as the State Board examinations are each year becoming more difficult. Let us hope that some other good friends may from time to time add to this library fund.

Respectfully submitted for the Committee,

E. B. ATHERTON.

Song, "The New Day's Birth," from Aida

Verali

Class

On to the Day's transcendent birth,
Sons of the Living Morning!
Destruction goes forlorn,
For love and light reveal'd to earth
Have flung open the tomb of night.
Hail to the Day!

The Day is bright with beauty,
Clad in radiant garments,
For Peace has claimed her people,
Claimed and redeemed them with love.
Her feet are in the valley,
Her head is starred with glory;
Free gifts of gold and purple splendor
She brings from the hills of delight.

The earth shakes with the mighty tread of a risen world,
As we march on the way.
The pledge of a triumphant love is the flag unfurled,
In salute to the Day.
Glory and praise we bring,
Fair are the flowers we fling,
Glad is the song we sing!

Our hearts echo the mighty tread of a risen world,
As we march on the way;
The sky trumpets the melody of a noble song,
In salute to the Day.
For strength born of our brotherhood, shall our joy
Shall our joy prolong,
As we march on the way.
Hail, Sons of Morning,
Hail to the Day!

Louise Ayres Garnett.

Class

You'll wander far and wide, dear,
But you'll come back again;
You'll come back to your father,
And your mother in the glen.
Although we may be lyin'
'Neath the heather grasses then,
You'll be coming back my darlin'.
Ah!

You'll hear the wild birds singing,
Beneath a brighter sky;
The roof-tree of your house, dear,
It will be broad and high.
But you'll hunger for the hearth-stone,
Where, a child you used to lye,
You'll be coming back, my darlin'.
Ah!
